SOME FURTHER RULE CHANGES / UPDATES 2024

Goal After Whistle

In the past, the ball had to pass completely through the ring before the whistle to be counted as a goal.

Now, if the whistle to end play (or to hold time) is blown after the ball has left the hands of the shooter and the shot is successful, the goal will be scored.

Toss Up Removal

If a simultaneous infringement occurs the umpire awards possession to the team that last had possession of the ball, where the ball was when play stopped.

Any player from that team may take the ball for the restart of play. It does not have to be the player who had the ball last. If it is in the team's goal circle, the goal shooter or goal attack may shoot for goal.

This is different from a situation where possession is called as a clarification (when two players gain possession of the ball in quick succession).

Short Pass

The updated rule states that when a player passes the ball there must be sufficient space on the court for an opposing player to be able to deflect or intercept the ball as it moves from the hands of the passer to those of the receiver.

The difference between the old rule “intercept by a hand” and the updated rule “deflect or intercept” is that the umpire must consider whether the defending player can make a genuine attempt.

Throw-in

With the new update, players no longer have to wait for all players to be on court before taking the throw-in.
